

ADVANCES IN TRANSPORTATION STUDIES

An International Journal

Editor-in-Chief: Andrea Benedetto

Section A & B

Vol. XXXIV • November 2014

Contents

Section A

- | | | |
|--|----|--|
| A. Benedetto, A.P. Tarko | 5 | In Memoriam – Matthew G. Karlaftis |
| J. Headrick, W. Uddin | 7 | Traffic flow microsimulation for performance evaluation of roundabouts and stop-controlled intersections at highway overpass |
| I. Dias, S. Dissanayake | 19 | Characteristics of red-light-running crashes and evaluation of retro-reflective signal backplates in preventing red-light-running violations |
| C. Lemieux, A. Stinchcombe, S. Gagnon, M. Bédard | 33 | Comparison of simulated driving performance across platforms: from ‘Low-Cost Desktop’ to ‘Mid-Level’ driving simulators |
| V. Kwigizile, T. Sando, D. Chimba | 43 | Understanding the role of alcohol and drugs on bicyclist injury severity |

Section B

- | | | |
|--|-----|---|
| V. Valentová, J. Ambros, Z. Janoška | 57 | A comparative analysis of identification of hazardous locations in regional rural road network |
| F.G. Praticò, M. Giunta | 67 | Safety evaluation: a new operating speed model for two-lane, undivided rural roads |
| H. Zhou, J. Zhao, P.-S. Lin, P. Hsu | 81 | Reducing traffic crashes through a short-term and long-term safety improvement program: a case example in Florida |
| A. Montella, F. Galante, L.L. Imbriani, F. Mauriello, M. Perneti | 91 | Simulator evaluation of drivers’ behaviour on horizontal curves of two-lane rural highways |
| S. Vardaki, G. Yannis, S.G. Papageorgiou | 105 | Assessing selected cognitive impairments using a driving simulator: a focused review |
